COMPÉTENCES VISÉES

By attending this open course, you will understand and apply appropriate approaches and tools to effectively manage a solidarity project. And more specifically, you will know how to:

- Identify appropriate needs assessment methodologies and data collection tools, according to the context and the evaluation of terms of reference
- Describe the main steps in the design of multi-sectoral programmes and projects
- Design and use the Logical Framework based on the Logical Framework Analysis
- Design a monitoring and evaluation framework for the project, selecting the appropriate tools and indicators
- Choose relevant criteria in order to develop objectives for an ex-post evaluation (end of project evaluation)

PROGRAMME

- Day 1: introduction to project cycle management and diagnostics
- Day 2: project design and planning
- Day 3: implementation, closure and evaluation

PROFILS CIBLES

This training course is for you if:

- You are currently working with a national or international aid organisation and you wish to enhance your knowledge on project management methodology
- You are an aspiring aid worker aiming at strengthening your understanding of project management methodologies and tools
- You are currently working in logistics, finance, human resources… and you want to develop a career in the management of solidarity projects

Pre-requisite: none.

Bioforce training courses are accessible to people with disabilities: a dedicated person is in charge of welcoming, monitoring and supporting people with disabilities before and during their training at Bioforce.
